

DJ & DJM Universal Armature Machines

Make All Repairs With One Machine!

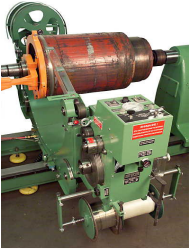

Improve your quality, accuracy and consistency with a **multi-process** machine

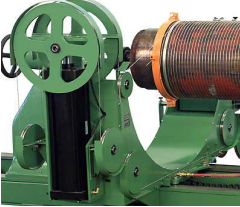

Automatic Undercutting

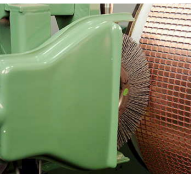

Tape Banding

Wire Banding

Armature Reroll

Brush Deburring

Coil Lead Cut-Off

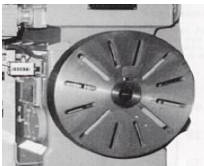

TIG Welding

Commutator Turning

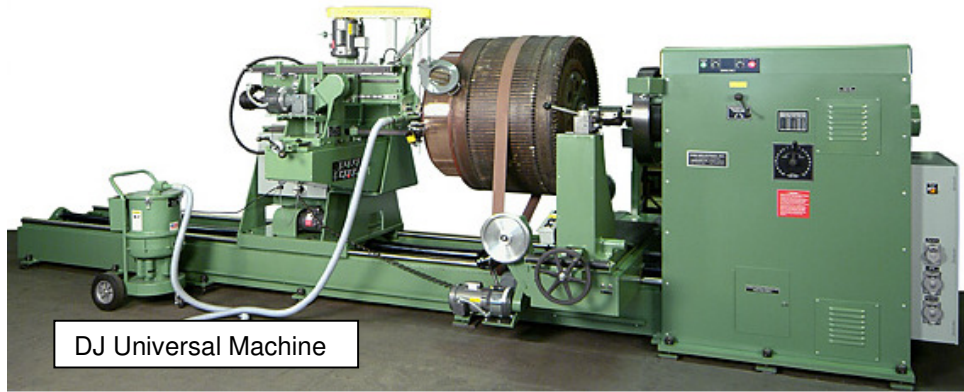

Commutator Grinding

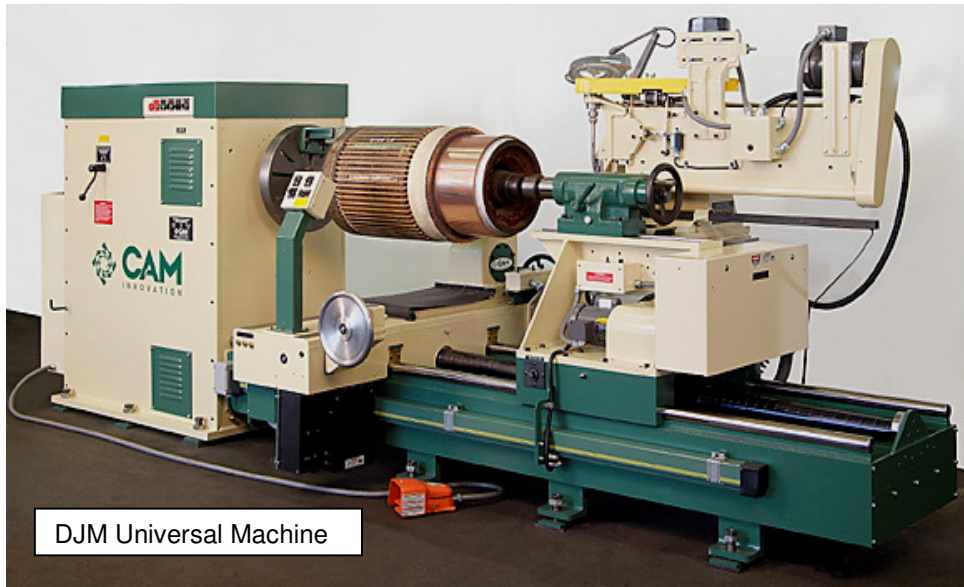

Coil/Form Winding

Universal Armature Machines are designed for mills, shipyards, mines, railroads and shops that manufacture and repair small quantities of large motors and generators. They can be equipped to perform virtually all the shop processes required to rebuild an armature and will greatly lessen your armature handling time. By using a single Universal Machine rather than a shop full of dedicated machines, you'll save valuable shop floor space and have the ability to perform consistent, high quality motor repairs!
